VALIDATION AND AUDIT OF E-MEDIA DELIVERY

ABSTRACT OF THE DISCLOSURE

The present invention provides a method, a computer-readable medium and a digital content delivery service system for sending and validating/auditing delivery of e-media. The method includes the steps of: obtaining/receiving e-media of a sender/user wherein the sender/user has indicated a requested type of delivery of the e-media to a client/receiving party, wherein the client is a software application; accessing an account of the sender/user to obtain sender/user information; sending the e-media to the client/receiving party; and receiving a validation/audit of the requested type of delivery upon receipt/consumption of the e-media by the client/receiving party.
